SUMMARY

I am a passionate Frontend Developer with over 5 years of hands-on experience in designing and implementing responsive, user-centric web applications. My proficiency in Angular 2+, JavaScript ES6+, and TypeScript enables me to craft dynamic and scalable solutions tailored to meet diverse requirements. I possess a robust background in leveraging cutting-edge UI frameworks to engineer high-performance applications that align seamlessly with both user expectations and business objectives. My adeptness with microfrontend architecture facilitates the refinement of code modularity and drives substantial enhancements in application performance.

SKILLS

Angular 2+	AngularJS
Microfrontend Architecture	Bootstrap
Material UI	Tailwind CSS
HTML5	CSS3
JavaScript ES6+	TypeScript
jQuery	AJAX
RESTful API Integration	Git
TFS	Visual Studio Code
Unit Testing	CI/CD
GitHub	Agile Methodology

EXPERIENCE

Front End Developer ,Ministry of Industry and Mineral Resources,Saudi Arabia	10/2022 – present
- Developed and optimized custom web applications using Angular, enhancing performance by 25% and improving load times by 30%. - Implemented microfrontend architecture and lazy loading, resulting in a 20% improvement in code maintainability and scalable development. - Built and maintained reusable Angular components, significantly improving development efficiency and reducing project delivery time by 15% through Agile methodology. - Integrated RESTful APIs to support over 1,500 ministry personnel and reduced bug resolution time by 25% through continuous integration and automated testing. - Designed and implemented dynamic web portals using Angular, leading to enhanced application performance and user experience.	
Front End Developer, Select ICT, Cairo, Egypt	10/2021 – 09/2022
- Developed web applications using Angular and the ABP Framework, improving page load speed by 20% and building modular, reusable components that reduced development time by 15%. - Designed and developed a survey system, supporting over 2,500 users. - Adopted microfrontend architecture to streamline code management and enhance application maintainability.	
Front End Developer, Gulf Data, Saudi Arabia	06/2020 – 09/2021
- Collaborated on UI design and development for the Gulf Date platform, improving user engagement by 30%. - Created responsive layouts using Material UI and Bootstrap, reducing bounce rates by 20%. - Enhanced interactivity using JavaScript and jQuery, contributing to a 15% increase in user.	

EDUCATION

Bachelor of Science in Computer and Information

Faculty of Computer and Information, Mansoura University

Graduated with a GPA : 3.5
